

Color B - (-2.0 to 2.0)

Color L - > 76.0

**PET 7676** is a food grade **PET** copolymer resin designed for the water container market. It is available with **(7676R)** or without fast reheat properties that improve productivity and energy savings during processing.

#### Features:

- Copolymer
- Food contact acceptable

#### Typical Applications:

- Water containers

PROPERTIES	UNIT	VALUES
Acetaldehyde	ppm	< 1.0
Color B		-2.00 to 2.00
Color L		> 76.0
CooH Group	meq/kg	< 30.0
Crystallinity	%	> 50
Intrinsic Viscosity	dl/g	0.74 to 0.78
Moisture Content	wt%	< 0.25
<b>THERMAL</b>		
Melting Temperature	°F	246 to 250
